The Evolution of Regulatory Technologies

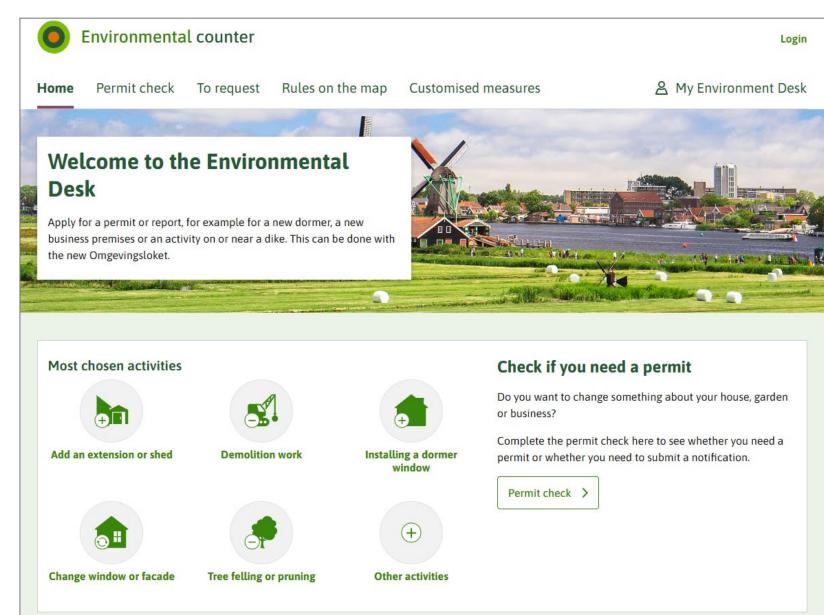

The Definitions of Norm Engineering

Norm Engineering

Norm Engineering creates an official plain language (and machine readable) version of regulatory documents by presenting it in terms and structures that can be more readily understood by the non-legal community. FLINT Framework

FLINT (Formal Language for the INTerpretation of Normative Sources) is a framework and standard representing a source of norms supporting Norm Engineering and structures regulations into their **Acts, Facts, and Duties** (FLINT Frames).

An example of Norm Engineering in Action Today

The World's First Regulatory Transformer For Norm Engineering

Deloitte.

Owns regulatory intelligence assets like **RegExplorer** capable of ingesting complex government regulations and effectively normalizing data, making it machine readable, and applying AI and analytics

Possesses resources to support scaling the conversion of regulations using the power of AI, enabling high-speed processing of regulations, and enhancing models and platforms.

Manages a rigorous **FLINT** methodology and supporting software to facilitate development of the **FLINT Frames** capable of accurately processing regulations and enhancing regulation transparency

Designed for Policy Experts and People

Regulations

Corresponding Regulation for the Query: show me ORC_4709.09

ORC_4709.09 (A) Each applicant who desires to obtain a barber shop license shall apply to the state cosmetology and barber board, on forms provided by the board. The board shall issue a barber shop license to an applicant if the board determines that the applicant has paid the license fee and ensured that the barber shop shall meet all of the following requirements: (1) Be in the charge and under the immediate supervision of a licensed barber; (2) Be equipped to provide running hot and cold water and proper drainage; (3) Be in compliance with the infection control standards adopted by the board in rule; (4) Pass an initial inspection as described in division (A)(10) of section 4713.07 of the Revised Code.

(B) An applicant issued a barber shop license under division (A) of this section shall display the shop license and a copy of the infection control standards provided by the board under division (A)(5) of section 4709.05 of the Revised Code in a public and conspicuous place in the barber shop.

(C)(1) Any licensed barber who leases space in a licensed barber shop and engages in the practice of barbering independent and free from supervision of the owner or manager of the barber shop shall obtain an independent contractor license by submitting the form provided by the board, paying the applicable fee, and satisfying the conditions for the license established in rules adopted under section 4709.05 of the Revised Code.
